

Service and Repairs

Ensuring your equipment is in top working order for maximum efficiency is our primary goal. With more than 100 years industry experience and a national service network, you can depend on our expertise for the maintenance, repair and calibration of all types of scales, label printers, labelling systems and food equipment.

Our national network of offices and mobile service technicians are able to install new equipment, supply fix-on-fail service, and conduct major refits and overhauls.

Included in our services are:

- scale calibration maintenance and repairs throughout New Zealand for all industries including but not limited to; foundries, manufacturing, marine, retail, laboratory, veterinary, health and fitness
- IANZ calibration services providing calibration reports and scale performance certificates
- Weights & Measures accredited services
- traceable reports
- printer maintenance, servicing and repairs
- food processing machine parts, maintenance and repairs
- genuine parts for ongoing equipment performance
- comprehensive service plan options
- scale hire and loan equipment
- free quotation for replacement equipment if required

For equipment maintenance or repairs, or to request calibration or certification work, contact your local Wedderburn branch.
