

Tanita Body Composition Analyser

Model : TIMC580

The Tanita MC580 Segmental Body Composition Scale is the latest innovation from Tanita. It uses Dual Frequency Bio Impedance to provide fast and accurate results, and has Bluetooth for tablet connectivity. It comes with a column stand for fixed display or the column can easily be removed making it compact, light and easy to transport.

The Tanita MC580 provides in-depth segmental body composition analysis in less than one minute. Results can be automatically printed using an optional Thermal Printer or sent via Bluetooth to a Tablet (Tanita Pro App) or via RS-232 to computer/laptop (GMON Software).

FEATURES

TIMC580

- dual frequency for more accurate measurement results
- portable version and column stand provided
- large backlit LCD display
- large scale platform with high weight capacity
- light weight and robust design
- measures Body Composition in one operation
- precise Body Fat readings without conductive fluid
- Body Fat increments of 0.1%
- quick non invasive technology (under 1 minute)
- clinical accuracy with simple operation
- 2 user modes, standard (5 to 99 years of age) and athlete (18 to 99 years of age)
