

Semi-Automatic Bottle Labeller

Model: BOTTLEMATIC F Series

Label bottles, cans, jars and tubes quickly and easily, and most importantly with accurate wrinkle-free placement. Simply load the labels, place the item to be labelled on the machine and depress the foot switch. Job done!

FEATURES

BOTTLEMATIC F SERIES

- quality steel construction with highly polished dispensing bars to ensure smooth flow of labels
- label objects from 13 mm to 150 mm diameter and up to 200 mm in length on the Bottlematic F10 and up to 300 mm in length on the Bottlematic F16 (longer if the item has a neck)
- designed for a 76 mm label roll core
- easily label tapered bottles simply by adjusting the roller position
- labels are applied at over 114 mm per second, allowing over 1000 pieces to be labelled per hour with average dexterity
- easy loading and removing of items being labelled
- comes complete with a convenient footswitch, keeping hands free for quick placement and removal of items
- micro-switch activation works on most labels even transparent labels

Bottles and labels not included with machine
