

Weigh Labelling Scale with Auto-Cut Linerless Labelling

Model : TSSM120LLP

Trade approved price computing scales with linerless label printer and a unique built-in system for auto-cutting labels. These affordable retail labelling scales deliver impressive efficiency and cost savings with variable label sizing & formatting - all from one roll of linerless labels.

FEATURES

TSSM120LLP

- legal for trade use (TS2182)
- text formats include **reverse text** but **not bold text** so this machine is not suitable for Plain English Allergen Labelling (PEAL)
- built-in guillotine system for auto-cutting linerless labels at a length that perfectly suits the label just printed
- simple to use
- bright alpha-numeric display front and rear (includes tare display)
- easy to change label with front loading cassette
- flexible informative label printing including graphics and barcodes
- large memory to cater for most food labelling requirements

LINERLESS LABELLING & BUILT-IN AUTO CUTTER

- auto-label-sizing feature eliminates unused space on the label and automatically adjusts the label size to reduce label costs and waste
- the elimination of backing paper on label rolls means no liner to dispose of, improving your environmental footprint
- unique built-in guillotine system for auto-cutting labels with a clean cut every time improves efficiency and consumer appeal
- labels are printed on and cut from a continuous roll of linerless labels. This means a wide variation of labels can be printed without the need for different pre-printed or die-cut labels.
- the linerless label system allows twice the number of labels on a roll compared with labels with backing paper. This means less space required for storage and fewer roll changes.

OPTIONS

- bench model available on indent (model # TSSM120LLB)
