

# Medical Patient Wheelchair Scale

Model : WM501

Medical patient weighing wheelchair scale. The WM501 has a low profile platform design which makes it easy to roll on and off when using a wheelchair. The platform is large enough to handle most types of wheelchairs. This multi-purpose scale is ideal for weight monitoring in hospitals, medical clinics and retirement homes.

## FEATURES

- professional patient, multi purpose scale ideal for hospitals, medical clinics and retirement homes
- heavy duty low profile steel construction with integrated ramps affording easy on-off access for patients
- sturdy rear mounted hand rail and integrated ramps ensures patient safety when weighing either standing, with a walker, in wheel chairs or on a stationary chair
- collapsible hand rail, two lift handles and wheels at the rear of weigh platform allow for easy relocation and / or space saving storage
- easy to read 25 mm LCD display with back light
- auto weight-lock function on stable weight
- weight hold and last weight recall function
- Body Mass Index (BMI) calculation upon height input
- AC/DC adaptor and built in rechargeable battery operation
- battery life approximately 60 hours continuous use
- RS-232 output
- New Zealand Register of Medical Devices (WAND) #101129-WAND-6A43QP
- Australian Register of Therapeutic Goods (ARTG) # 174863
- net weight 37 kg

## OPTIONS

- auxilliary expanding ramps allowing smooth ease of access to the weigh platform
