

# PE Stretch Film

## PVC-Free Food Grade Film

Wedderburn is excited to introduce the latest in our recyclable product lineup: Polyolefin (PE) Film.

Known for its exceptional flexibility, durability and versatility, Wedderburn PE film is the ideal choice for a wide range of packaging applications. This film is helping NZ businesses attain their recyclable packaging goals, with one customer potentially reducing around 850 tonnes of PVC plastic being sent to landfill each year.

### FEATURES

**RECYCLABLE:** Wedderburn PE film is **soft plastics recyclable** making it more environmentally friendly than PVC film positively contributing to reducing waste and conserving resources.

**PROTECTION:** PE film offers excellent protection against moisture, dust and other contaminants ensuring your products remain safe and intact during storage and transit.

**FLEXIBILITY:** With its high flexibility, PE film conforms to various shapes and sizes, making it suitable for wrapping a diverse range of products.

**DURABILITY:** Built to withstand rigorous handling and transportation, Wedderburn's PE film ensures your products reach their destination in perfect condition.

**VERSATILITY:** Suitable for a range of applications;

**Food:** ideal for packaging food locking in freshness and maintaining hygiene.

**Retail:** protects and enhances the appeal of consumer goods on store shelves.

### COMPATIBLE WITH OUR COMPLETE RANGE OF DIGI WRAPPERS

DIGIWRAP AUTO (stretch wrapping film) is a polyolefin multilayer co-extruded stretch wrapping film specifically designed for automatic/manual packaging applications of food. It is compatible with all our DIGI Wrapping Machines.
