

Tanita Body Composition Analyser

Model : TIMC780MA

Multi-frequency body composition analyser with 270 kg capacity provides detailed analysis and information of body composition. Ideal for medical practitioners, hospitals, gyms and health clubs.

FEATURES

- next generation body composition analysis utilising multi frequency technology providing heightened accuracy with proven reliability and repeatability
- non-invasive 8 electrode Bioelectrical Impedance Analysis
- total body analysis including body fat, muscle mass, total body water, extra cellular and intra cellular water, bone mass, visceral fat rating, metabolic age and more
- detailed information and analysis of intra cellular and extra cellular water essential for fluid status assessment
- segmental analysis for each leg, arm and trunk, fat distribution and reactance/resistance assessment allowing in-depth trend consultation
- clinical accuracy with quick 20 second analysis
- 2 user modes, standard and athlete, 5 to 99 years of age, 90 - 250 cm height
- USB & RS232C data output for in-depth assessment
- SD Card slot for data recording
- USB mini-B printer port for connection to validated PictBridge printer
- New Zealand Register of Medical Devices (WAND) #101129-WAND-6A43MB
- Australian Register of Therapeutic Goods (ARTG) # 142294
- net weight 15.5 kg

OPTIONS

- Tanita health monitoring software
- TIMC780MANEDG direct print version
- plug-in Bluetooth transmitter for app connectivity
- Bluetooth adaptor kit for wireless PC connectivity
