

# Meat Bandsaw with Finger Protection System

Model : MADO-MK Series

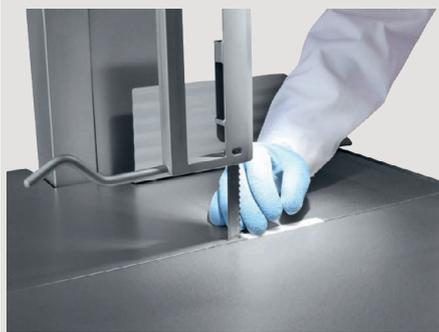

Powerful range of commercial grade Meat Bandsaws designed to cut through your workload with precision and safety whether it's meat, bone, poultry, fish or frozen product.

The Finger Protection System (**FPS**) offers a work safe solution without the need for constant and costly resets or servicing.

## FEATURES

- Finger Protection System (FPS) provides optimal operator safety
- manufactured from high-grade stainless steel
- fast cutting speed up to 22 m per second
- thickness guide plate as standard
- bone dust container (stainless)
- "feed-on and safe cut" arm (removeable)
- height adjustable blade shield
- safety door switch and motor brake
- 3 phase power
- fixed or sliding table models available

## FINGER PROTECTION SYSTEM (FPS)

MADO's Finger Protection System technology brings the bandsaw to a standstill within just a few milliseconds using a camera monitored band-stop system.

The bandsaw can be restarted once the sensor area is clear.

Releasing blade tension prevents unnecessary and costly stress on the band which reduces the need for servicing and frequent blade replacement.
