

Semi-Automatic Food Slicer

Model : WFSECSA35B3

Economical food slicer with semi-automatic operation and a large blade diameter of 350 mm. The mirror polished aluminium makes cleaning easy and helps achieve high levels of food hygiene. Ideal for Butchers, Delis and Supermarkets.

FEATURES

- large 350mm blade diameter
- IP69 rated peizo switches that are resistant to water and harsh environments
- high capacity carriage for large cuts of meats
- stow-away product holder for slicing flexibility
- patented poly-V belt drive with auto-belt tension to prevent slipping
- single speed and stroke length for consistency
- adjustable salami fence, keeping round products stable
- large clearance for easy cleaning
- mirror polished aluminium alloy makes cleaning easy and helps achieve high levels of food hygiene
- single phase power 240V AC 50Hz

SAFETY FEATURES

Blade safety ring: the blade is completely shrouded by a metal safety guard.

Safety interlock: the carriage interlock does not allow tilting of the carriage unless the index knob is set to zero. This prevents the blade from being exposed whilst cleaning, thereby reducing risk of injury.

Power fail safe: if mains power fails and is resumed, the slicer will not start until the slicer "on" button is re-selected by the operator. There is no risk of the slicer starting inadvertently.

No blade removal required: a large gap between the blade and motor housing allows easy access behind the blade for cleaning. There is no need for an operator to remove the blade.

CE Approved: this means the highest standards of design and manufacture have been adhered to for optimal level of safety for the user.
