

Mild Steel Weigh Bar System

Model : WS01B Series

Heavy duty weigh bars make an ideal alternative to platform scales when weighing oversized or non-standard shaped items. These weigh bars have a low profile, are constructed in mild steel and incorporate IP67 rated load cells. A handle at one end and wheel at the other makes them easy and safe to reposition when required.

FEATURES

- heavy duty, low profile weigh bars
- solid robust mild steel construction with powder coated finish
- 4 x IP67 rated alloy tool steel load cells
 - 600 mm long weigh bars use 1,000 kg load cells
 - 1,200 mm long weigh bars use 2,000 kg load cells
- convenient handle at one end and wheel at the other make these weigh bars easy to reposition or move
- ideal for mobile applications, pallet jack and forklift loading
- low profile, 110 mm overall height
- 5 meter high-viz cable length from weigh bars to indicator

OPTIONS

- wall or desk mounted display options
